

*Let Automation Lead
Your Trading Success!*

Who We Are?

we're innovators in AI-driven, automated trading solutions designed to empower traders of all levels. Our mission is to simplify and enhance the trading experience, making it accessible, efficient, and profitable.

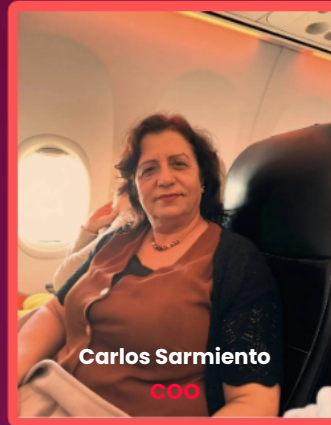

Our platform is built for everyone—from beginners looking to start their trading journey to seasoned investors aiming to maximize returns. With ExtradeBot, you get a trusted partner in the fast-paced world of trading, committed to helping you reach your financial goals.

Corporate Staff

Industrial and Systems Engineer, 20 years developing businesses and 15 years of experience in Network Marketing, 8 years of experience managing companies dedicated to Sports, Crypto-assets, Forex and Futures trading.

Architect, Marketing Director of Insurance companies, 13 years in the insurance sector, 10 years experience in Network marketing, 7 years of experience in Sports trading and 5 specialized in Sports trading arbitrage.

16 years of experience in social media handling and customer service supervision. Broad experience in public events and a Master in public relations.

Why Choose ExtradeBot?

Efficiency: Saves time by automating the analysis and execution of trades. Reduces human error and emotion-driven decisions, opportunity is missed, even when markets are open around the clock. Built with robust security protocols to safeguard user data and funds.

\$27 Billion

The sports market has been growing steadily.
By the end of 2022 it reached over 27 billion.

62% growth

We are in a growing market and the advantages are remarkable.

Automated Trading Execution

Forex

In the Forex market there are opportunities to trade EUR, USD, GBP, etc.

An example is a GBP/USD buy trade, where GBP is purchased in exchange for USD with the expectation that GBP will increase in value relative to USD.

SpotGrid

The Sports market has ways of trading, for example (Football) Manchester, Club Leon, Napoli, Real Madrid, etc.

An example is a trade **Napoli/Manchester**, where **WIN** means Napoli win and **LOSE** means you expect Manchester to win.

Arbitrage

A financial strategy that consists of taking advantage of the difference in price between different markets for the same financial asset in order to obtain an economic benefit.

Sports Trading Arbitrage

To take advantage of the difference between the same game ticket on different sports exchange platforms, in order to obtain a positive result between the sum of the winning game ticket and the subtraction of the losing ticket.

Our System

The power of Artificial Intelligence
Ratio

25%

The maximum number of losing trades that we normally submit when our AI is not 100% connected.

75%

The minimum number of trades in profit that we normally submit when our AI is not 100% connected.

Rebalancing

It's the process by which our AI returns possible losses to every member's account.

With you we are a TEAM.

**Join our company, have access
to our Automated System with
Artificial Intelligence and earn from
Our SpotGrid system with Arbitrage.**

Using the Arbitrage with AI service carries a 4% fee of the proceeds,
which is used for events that contribute to development.

Do you want to increase your profits?
